
The Costs of Gun Control for Licensed Firearms Dealers in Australia

To our participating dealers,

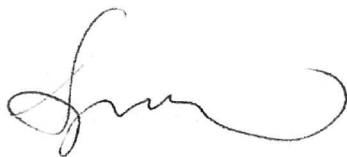

We would like to thank you for participating in this research, your contributions have been invaluable in allowing us an insight into the firearms dealers' community, as well as, giving us expert insight into Australian firearms legislation and the costs of gun control. We have finished the first phase of this research, and have created a report on our findings.

SSAA have received our report and plan to do a press release in January along with a digital release of the entire report. We also plan to continue this research, as there are several states and territories we have not yet been able to cover.

Accompanying this letter is the Executive Summary of the report we have written. It contains a brief breakdown of the findings of the report and we ask that if you would like to receive a copy of the full report, please contact either myself (s.fay@uq.edu.au) or my project manager Emma (e.belgrove@uq.edu.au) to arrange for it to be emailed (or posted) to you.

Once again, we thank you for your participation and look forward to further collaborations with the dealer's community in the future.

Kind regards,

Dr Suzanna Fay
